Considering These?

Clay / Concrete Tiles

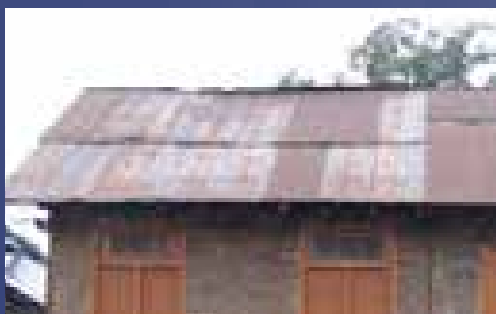

**Fake and Copy Stone
Coated Metal Roof Tiles**

Thatch / Majani

Bitumen Shingles

Long Run / Project Tiles

#Genuine

We Recommend These

Decra® Milano Tile

The Decra® Milano tile replicates beautifully the style of Roman villa tiles, with none of the disadvantages of fragile and brittle clay tiles. With little to no wastage, Milano offers a cost effective and longer lasting alternative to clay. Finished with natural stone chip with a biocide coating, the Decra® Milano tile offers vibrant colours that last without the risk of damage from vegetative growth. Plus, our unique fixing method ensures that Decra® tiles cannot be uprooted, even by hurricane strength winds.

Decra® Heritage Tile

The worlds best selling stone coated steel roof tile will provide you with a hassle-free roof. For durability, we haven't seen a tile that comes close, even by the coast. We provide a written 50 year warranty thanks to the core of alu-zinc steel and our unique manufacturing processes. The natural stone coating ensures that the colour will not fade and will remain vibrant, long after other roofs have faded and look ugly.

Decra® Shake Tile

The Decra® Shake tile is often used to replace thatch roofs, giving a thatch appearance but combined with modern lightweight technology and durability that far outstrips traditional thatch methods. The main advantage of using Decra® Shake instead of thatch is the outstanding fire resistant performance, protecting both property and occupants. Many of Africa's best hotels have chosen Decra® Shake for these reasons.

Decra® Shingle Tile

Fast to install, durable and good looking, Decra® takes the style of Bitumen Shingles to the next level. A three dimensional tile, stone coated and ribbed to aid rainwater removal, a Decra® Shingle roof can give a unique and evolving appearance as the sun's reflection changes throughout the day, depending on its position. A favourite with architects, Decra® Shingle creates a strong appearance with long durability to please any home owner.

Decra® Heritage Smooth Tile

The Decra® Heritage Smooth tile has all the long life benefits of our stone coated Decra® tiles, while maintaining a cost advantage. When budgets are a major consideration, but looks, low maintenance, performance and quality are also important, the Decra® Heritage Smooth tile offers the perfect solution.
