## 3 WATER PRODUCTS

### Introduction :

**PIPING** : We started with Waterpiping, - and were the first to introduce a new plastic pressure pipe which could be threaded, commonly called IPS PIPING. Whilst the product has been replicated by many manufacturers, - the quality has never matched IPS, are we still Distribute GENUINE products. We have recently taken on a Project pipe" from the UK called Flow-Plumb, and have installed it at a number of housing estates. **The main advantage is the fitting is fully DE-MOUNTABLE.**

**HOTWATER CYLINDERS** : The name Arston is well known, - however recently we have taken on a new range of water heaters from the UK - also under the Flow-Plum brand. **The main advantage of these is that they are coated with new technology called BlueGlass** - this increases the life of the cylinder and the heating element, especially where water is very alkaline.

**WATER TANKS** : We have always offered open water tanks/reservoirs which are various capacities & knock-down, the new Rainbow Range have solid roofs and have a capacity range from **13,000L > 2million liters**

**WATER FILTERS** : Water Filtration is a science, - however we were approached by a well established Water Filtration company called ION EXCHANGE. Whilst we were impressed by their prices, - we were sceptical about their quality, - until we were advised they would be setting up locally in Dar es Salaam to support us. They have given us and our customers really good support - so their advantage is both **good pricing and immediate local back up**

**SWIMMING POOL** : Nabki has always been synonymous with Swimming pools, - starting with quick and cost effective liner pools, - we slowly progressed to a wide range of both Pool Equipment and Pool Chemicals. We probably have the **widest range of Pool Equipment in Tanzania**.

### 3 WATER PRODUCTS :

CATALOG 3

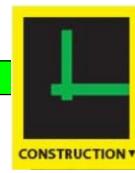

Water Heaters-ELECTRIC, Water HEATERS-SOLAR, Tanks & Reservoirs, Pumps, Taps and Valves, Pressure Pipe - PUSHFIT, Pressure Pipe-THREADED, Pressure Pipe-FUSION, Pipe - HDPE, Irrigation, Pool Equipment, Swimming Pools, Pool Chemicals

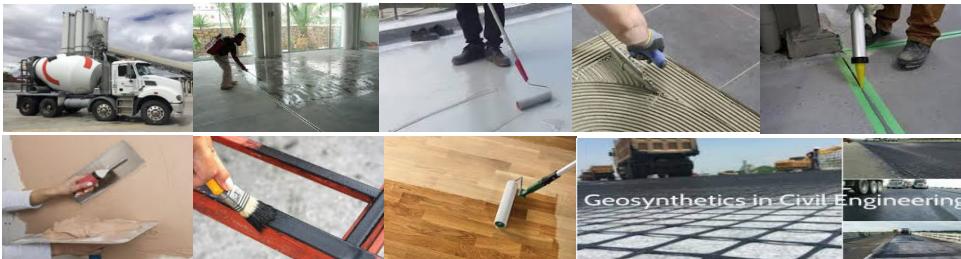

## 2 CONSTRUCTION PRODUCTS :

CATALOG 2

Admixtures, Surface Treatments, Bonding Agents, Concrete Repair, Flooring & Coatings, Waterproofing & Coatings, TileAdhesives & Grouts, Grouts & Anchors, Sealants, Adhesives, Coatings - Wood, Coatings - Steel, Concrete Corrosion Protection, Fixings, Tapes,Decorative Plasters, Construction Netting, Construction Machinery, Geosynthetics

## 1 ROOF PRODUCTS :

CATALOG 3
