

WATER-Pool-Chemicals

1. Sanitizers Sanitizers are the main ingredient of basic pool maintenance. They keep pool water clear and protected from bacteria and each BioGuard pool care programme is based on a sanitizer to provide this important protection.
 2. Algaecides BioGuard has products to kill, prevent and control algae infestations. Use them to avoid murky water, increased chlorine demand and clogged filters. Let your BioGuard Dealer recommend the product that best suits your pool situation.
 3. Balancers Control scale, prevent metallic stains, adjust the pH and total alkalinity and correct mineral imbalances.
 4. Oxidizers / Shocks se oxidizers to shock the water and chemically destroy the organic contaminants introduced by bathers and the environment. Restore water clarity and eliminates the main cause of eye and nose irritation.
 5. Water Enhancers Enhancers restore the sparkle to your pool water and help your filter work more efficiently.
- and Solution Products Restore the pool equipment's efficiency and keep your swimming pool looking new, inviting and ready for swimming when you are.
7. TEST Professional water Testing products

	442100 BLU 52	SANITISER	All-in-one, 1,2kg (50,000 ltr pool)	1.2 KG	BLU52 pool care products provide you with an all-in-one pool maintenance solution, saving you time and energy, giving you more time to enjoy the clear blue water of your swimming pool. The 4-week value pack provides you with an easy-to-store product with a once-a-week measured application. Our products are fast-acting, convenient and easy to use. Most importantly, our simple solution is guaranteed to work.	BLU52 has a specific product for pools that hold up to 75,000 litres
	442105 BLU 52	SANITISER	All-in-one, 1,7kg (75,000 ltr pool)	1.7 KG	BLU52 pool care products provide you with an all-in-one pool maintenance solution, saving you time and energy, giving you more time to enjoy the clear blue water of your swimming pool.	BLU52 has a specific product for pools that hold up to 100,00 litres
	471000 BIOGUARD	SANITISER	Swim Tabs 1.5 KG	1.5 KG	Swim Tabs are an enhanced formulation of stabilized long lasting chlorine in 16g tablets, designed for use in floating baskets or automatic in-line feeders. Multifunctional – contains a sanitizer, clarifier and water enhancer, Sanitizes, clarifies and enhances bather comfort, Improved water clarity, Won't cloud water, No residue	
	471100 BIOGUARD	SANITISER	Swim Clear Floater 1.5 KG	1.5 KG	Swim Clear Floater is a multifunctional stabilized floating chlorine feeder that lasts up to a month in pools up to 50,000l.	
	471200 BIOGUARD	SANITISER	Smart Tabs 1.2 KG	1.2 KG	Smart Tabs are stabilized, concentrated 200g chlorine tablets containing Smart Guard. * Smart Tabs kill bacteria continuously by maintaining the proper chlorine level in your pool. * Smart Guard, the patented ingredient in Smart Tabs, prevents them from dissolving too quickly so they'll last all week or up to twice as long as ordinary tablets.	

	471400 BIOGUARD	SANITISER	Ultraswim 2.25 KG	2.25 KG	Ultraswim, a multi-function STABILIZED GRANULAR chlorine with built-in clarifiers filter enhancer algae preventative and sunlight protector.
	471500 BIOGUARD	SANITISER	Ultraswim 10 KG	10 KG	Ultraswim, a multi-function STABILIZED GRANULAR chlorine with built-in clarifiers filter enhancer algae preventative and sunlight protector.
	440000 TWO TEN	SANITISER	Chlorine Floater 1.5 KG	1.5 KG	Stabilised floater, keeps swimming pool sanitised on a monthly basis.
	450010 POOL COM	SANITISER	Chlorine Floater 1.4 KG	1.4 KG	
	440100 TWO TEN	SANITISER	Granular Chlorine 4Kg JAR	4 KG	
	450020 POOL COM	SANITISER	Granular Chlorine 4Kg JAR	4 KG	
	450005 ASTRAL	SANITISER	Granulated Chlorine 90% 5 KG	5 KG	Non comburent Chlorine. Trichloroisocyanuric and multi-action tablets and blocks similar to the usual ones but in NON COMBURENT version. According to the existing regulation, the non comburent products have a lower hazard level than the comburent chlorate products. For this reason, it does not have any storage limitations (379/2001 and Seveso II Standards). Trichloroisocyanuric acid granules with 90% available Chlorine
	450022 ASTRAL	SANITISER	Granulated Chlorine 90% 10 KG	10 KG	

	440200 TWO TEN	SANITISER	Granular Chlorine 10 KG	10 KG	Calcium Hypochlorite 650 g/kg
	450025 ASTRAL	SANITISER	Granular Chlorine 90% 25 KG	25 KG	Non comburent Chlorine. Trichloroisocyanuric and multi-action tablets and blocks similar to the usual ones but in NON COMBURENT version. According to the existing regulation, the non comburent products have a lower hazard level than the comburent chlorate products. For this reason, it does not have any storage limitations (379/2001 and Seveso II Standards). Calcium hypochlorite granules with 70% of available Chlorine.
	440300 TWO TEN	SANITISER	Chlorine Pills 8'S 1.5 KG	1.5 KG	
	450070 POOL COM	SANITISER	Chlorine Pills 8'S 1.6 KG	1.6 KG	
	450030 POOL COM	SANITISER	Pool Boost 300 GR	300 g	
	473500 BIOGUARD	ALGAECIDE	Algae Killer 1 L	1 L	A very effective, quick acting, green and black algae destroyer. For best results use in conjunction with BioGuard® Burn Out. Kills a wide range of algae species, Fast Acting, Won't stain surfaces
	473600 BIOGUARD	ALGAECIDE	MSA II Algaecide 1 L	1 L	MSA II is the newest and most effective rival against all types of swimming pool algae, Effectively kills mustard algae, Concentrated algaecide
	440500 TWO TEN	ALGAECIDE	Algaecide 1.5 L	1.5 L	

	440505 TWO TEN	ALGAECIDE	Algaecide 2 L	2 L	
	450040 POOL COM	ALGAECIDE	Algaecide 2L	2 L	
	473700 BIOGUARD	ALGAECIDE	Back up 500 ML	500ml	An excellent algae inhibitor! Formulated to complement swimming pool water being treated with normal sanitizer systems. Strongest algae protection available. Becomes more effective as pool water gets warmer.
	442115 BLU 52	ALGAECIDE	Active Algaecide 2 ltr	2L	BLU52 Active Algaecide is very effective at destroying green and black algae. It also acts as a monthly preventative algae solution that clarifies pool water, enabling pool chemical efficiency and reducing monthly chlorine consumption.

	473000 BIOGUARD	BALANCER	Pool Magnet 1 L	1 L	BioGuard® Pool Magnet is a chelating agent that binds iron, copper and manganese in the water to prevent them from being oxidised and staining the pool surface or discolouring the water.
	450210 POOL BRITE	BALANCER	Metal Magic 1 L	1 L	METAL MAGIC – Prevents Staining and Scaling
	471800 BIOGUARD	BALANCER	Balance Pack 100 1 KG (Alka)	1 KG	Control scale, prevent metallic stains, adjust the pH and total alkalinity and correct mineral imbalances. Use to maintain total alkalinity. Proper total alkalinity prevents pH from bouncing due to rain, bather load, and other chemical application. Helps prevent pool staining, plaster etching or liner wrinkling.
	471805 BIOGUARD	BALANCER	Balance Pack 100 5 KG (Alka)	5 KG	Control scale, prevent metallic stains, adjust the pH and total alkalinity and correct mineral imbalances. Use to maintain total alkalinity. Proper total alkalinity prevents pH from bouncing due to rain, bather load, and other chemical application. Helps prevent pool staining, plaster etching or liner wrinkling.
	471900 BIOGUARD	BALANCER	Balance Pack 200 1 KG (Ph+)	1 KG	Use to raise pH in pool water. Helps prevent equipment corrosion, etching of plaster, and wrinkling of liners caused by low pH. Prevents eye irritation due to low pH.
	472000 BIOGUARD	BALANCER	Balance Pack 300 4 KG (Cal)	4 KG	Balance Pak 300 is a unique formulation for faster dissolving and less cloudiness. It boosts calcium hardness to help prevent equipment corrosion, etching of plaster and wrinkling of liners.
	472100 BIOGUARD	BALANCER	Lo 'N Slo 3 KG	3 KG	Reduces pH and total alkalinity in pool and spa water. Easier and safer to use and store than Hydrochloric Acid.
	441200 TWO TEN	BALANCER	Soda Ash 2 KG	2KG	BLU52 Soda Ash is used to increase the pH in swimming pools to ensure the pH level of the water is between 7.2 and 7.6 in marbelite pools..
	450120 POOL BRITE	BALANCER	Soda Ash PH Plus 500 GR	500 Gr	SODA ASH – Increases pH
	441000 TWO TEN	BALANCER	Alkalinity 1 KG	1 KG	IMPROVE ALKALINITY – Increases Total Alkalinity
	450135 POOL COM	BALANCER	Alkalinity 1 KG	1 KG	IMPROVE ALKALINITY – Increases Total Alkalinity

	450140 POOL BRITE	BALANCER	Improve Alkalinity Raise Alkalinity 2 KG 2 KG	IMPROVE ALKALINITY – Increases Total Alkalinity
	450110 POOL BRITE	BALANCER	Alum Powder 2 KG	Alum Powder is used to flocculate exceptionally cloudy or muddy water in swimming pools as well as dead algae that remains in suspension causing a "Pea Soup" type appearance. Once the suspended matter settles, a manual vacuum to "waste" is required.
	441102 POOL BRITE	BALANCER	Alum Powder 2 KG	
	441100 TWO TEN	BALANCER	Alum Powder 1 KG	
	442125 BLU 52	BALANCER	Soda Ash, 1kg	BLU52 Soda Ash is used to increase the pH in swimming pools to ensure the pH level of the water is between 7.2 and 7.6 in marbelite pools..
	442130 BLU 52	BALANCER	Hi-Strength Pool Acid,5 ltr	BLU52 Hi-Strength Pool Acid is used in regulating the acidity in the water, adjusting high pH levels in the pool water and adjusting Total Alkalinity. BLU52 Hi-Strength Pool Acid contains a minimum of 30% of hydrochloric acid.
	442145 BLU 52	BALANCER	Alkalinity 1kg	1 KG
	471600 BIOGUARD	SHOCK	Burn Out 450 GR	Burn Out is an excellent problem-solving product. Used for algae-related problems, low sanitizer levels or situations where pools experience a chlorine demand problem. Removes chlorine odour and red eyes caused by combined chloramines
	442140 BLU 52	SHOCK	Clear Shock 500g	Oxidizers / Shocks Use oxidizers to shock the water and chemically destroy the organic contaminants introduced by bathers and the environment. Restore water clarity and eliminates the main cause of eye and nose irritation.

	472500 BIOGUARD	ENHANCER	Polysheen Blue 500 ML	500ml	Polysheen® Blue is used to clear up cloudy water fast. It works on small suspended particles in the water. Helps make water beautifully clear, Combines small particles into larger ones for easy removal by the filter, Highly concentrated so a little goes a long way
	472600 BIOGUARD	ENHANCER	Kwik Clear 1 L	1 L	A pool settling agent to clear cloudy and discoloured water. Works overnight. Debris must be manually vacuumed from pool bottom. Restores water clarity, Easy vacuuming of debris.
	472800 BIOGUARD	ENHANCER	Sparkle Up 200 GR	200 Gr	Sparkle-Up restores water sparkle and keeps pool water clear by assisting the filter with removing tiny particles of suspended dirt, plaster, dust, dead algae, etc. It also absorbs metal ions to help prevent staining on pool surfaces. Benefits: Restores water sparkle Aids in removal of copper and iron Improves filtration For use with all filter types
	472900 BIOGUARD	ENHANCER	Super Clear Water Clarifier Pkt 6 x 60g	60 Gr	Polish your pool water!! Water clarifiers now in tablet form. Easy application – simply drop into the weir
	450090 POOL COM	ENHANCER	Sparkling Clear Flocculant 1.5 L	1.5 L	
	450100 POOL COM	ENHANCER	Sparkling Clear Flocculant 2 L	2 L	
	440600 TWO TEN	ENHANCER	Blue 2 L	2 L	Polysheen® Blue is used to clear up cloudy water fast. It works on small suspended particles in the water. Benefits: Concentrated water clarifier for all pool types Helps make water beautifully clear Does not require dilution Combines small particles into larger ones for easy removal by the filter Highly concentrated so a little goes a long way Can be used in all pool and filter types Does not effect pH
	440800 TWO TEN	ENHANCER	Water Clarifier 1 L	1 L	
	442135 BLU 52	ENHANCER	Diamond Sparkle Gel, 80gm	80g	BLU52 Diamond Sparkle Gel is an advanced water clarifying gel formula that rapidly clarifies cloudy water and restores crystal clear sparkle to your pool.
	442150 BLU 52	ENHANCER	Turbo Clear 2ltr	2 L	BLU52 Turbo Clear rapid flocculent and clarifier is designed to coagulate particles in the swimming pool water for easy, more efficient removal by the filter. BLU52 Turbo Clear will improve the efficiency of the filtration system ensuring sparkling pool water.
	473400 BIOGUARD	ENHANCER	Sun Shield 1 KG	1 KG	Sunshield is used to prevent free chlorine residual loss in swimming pool water due to sunlight. Protecting your chlorine from sunlight, reduces chlorine consumption and maintenance costs.

	473100 BIOGUARD	CLEANER	Scale Inhibitor 1 L	1 L	Reformulated Scale Inhibitor works four times better than our previous formula at preventing scale build-up from high calcium levels. Regular use of this concentrated formula prevents scale build-up on: Pool surfaces, Piping, Filtration & heating elements, Effective for up to four weeks
	440900 TWO TEN	CLEANER	Scale Down Salt Cleaner 2 L	2 L	
	440400 TWO TEN	CLEANER	Kwik Shock 500 GR	500g	
	472300 BIOGUARD	CLEANER	Strip Kwik 1 L	1 L	Removes oils and greases from diatomaceous earth filters, spa cartridges and sand filters. Lengthens filter cycles and promotes filter efficiency. BioGuard Strip Kwik should be used at least twice a season to control scale and to remove build-up of oils and greases on the filter media. It is highly recommended to cleanse filter media with Strip Kwik® after algae infestations. Benefits: Improves filtration/circulation Reduces operational costs Less water wasted Less work Works on all filter types
	472400 BIOGUARD	CLEANER	Salt Cell Cleaner 1 L	1 L	A specialised complex formulation that makes salt chlorinator electrode cleaning easier and improves the cell life. Designed to remove build up of scale from electrodes. Benefits: Improves cell life Safer for electrode Easy to use
	473200 BIOGUARD	CLEANER	Off The Wall		Highly effective tile and surface cleaner. Will remove bathtub ring and light scale deposits from swimming pool tiles. Unlike household products, this heavy duty pool surface cleaner is compatible with pool water. Benefits: Fast clean up Won't damage liner Easy application
	440700 TWO TEN	CLEANER	Filter Wash 1 L	1 L	
	380000 BIOGUARD	CLEANER	Zeolite 25 KG	25 KG	Clinobrite used as filter medium in swimming pool sandfilters. Clinobrite grains attract and trap extremely fine dirt particles and algae onto their surface and not just between the grains like ordinary sand. In practise, a Clinobrite pool filter can remove 40 - 50% more physical dirt than an outdated sand filter. It can also filter out much smaller particle sizes than sand. This greatly improves the clarity of your pool and gives much longer service cycles between backwash operations. Clinobrite is even able to trap the tiny cysts of diarrhoea causing cryptosporidium which are becoming a health problem in municipal waters worldwide!

	450270 POOL BRITE	CLEANER	Filter Sand 40 KG	40 KG	
	471700 BIOGUARD	CLEANER	Lite 450 GR	450 Gr	Patented BioGuard® Lite gives you the benefit of both an oxidiser and a clarifier in one product.
	442110 BLU 52	CLEANER	Metal Remover 2 ltr	2 L	BLU52 Metal Remover is a highly concentrated treatment for metal in pool water. It removes iron, silver, copper and other metals in pool water and quickly restores water clarity. Controls metal stains and scale from bromine and chlorine treated pools reducing scale formation in pool heaters, pumps and salt chlorination cells. Regular use keeps pool water clean and the plumbing in good condition.
	380050 PRATLEY	MEDIA	Zeolite 50 KG	50 KG	Pratley actively mines a mineral called Clinoptilolite (a specific type of zeolite) at a unique deposit in South Africa. Being much harder than most other Clinoptilolite ores found elsewhere, Pratley ore is ideally suited for producing some remarkable eco-friendly products in applications such as; pollution-control, water treatment, swimming pool/pond filtration, farming and nuclear clean-up. Clinoptilolite was also used to clean up the Chernobyl and Three Mile Island and Fukushima nuclear disasters.

	455000 AQUACHECK	TESTER	Pool Aquacheck Select 50	Tests for: Total Chlorine, Total Bromine, Free Chlorine, pH, Total Alkalinity, Total Hardness and Cyanuric Acid (Stabilizer).
	455400 AQUACHECK	TESTER	Aquacheck - Salt Water	Test for: Free Chlorine, pH, Total Alkalinity, Cyanuric Acid, and Salt (as sodium chloride)
	474700 AQUACHECK	TESTER	DPD #1 Tablets (50)	
	474800 AQUACHECK	TESTER	DPD #3 Tablets (50)
